

Career Summary

Enthusiastic and detail-oriented individual with hands-on experience in Data Analysis and Machine Learning. Strong knowledge of Python, SQL, ML Algorithms, Advanced Excel and Power BI, with a keen interest in learning and developing skills across diverse areas of technology to contribute to innovative and impactful projects.

EDUCATION

- **M.Sc Data Science** – Bishop Heber College, Trichy – **CGPA: 9.16** 2023–2025
- **B.Sc Mathematics** – Bharathiyar Arts and Science College, Salem – **CGPA: 9.0** 2020–2023

Technical Skills

Programming & Query Languages: Python, SQL

Python Libraries: Pandas, NumPy, Scikit-learn, Tensor Flow

Data Analytics Tools: Power BI, Advanced Excel

Database Management System: MySQL

Machine Learning & Deep Learning : Supervised & Unsupervised Learning, Neural Networks, RNN, Autoencoder, GAN, VAE

Cloud Platform ,Big Data Tools & Gen AI(Learner): Microsoft Azure, LLM, RAG, Hadoop

Soft Skills: Eagerness of learn New thing, Adaptability, Dedication, Teamwork, Leadership, Attention to detail

Professional Experience

Data Analyst – VDart, Trichy

Sep 2025–Present

Technologies: Python, SQL, Power BI, Advanced Excel

- Analyzed business and employee data to improve margins across multiple geographies.
- Built ETL pipelines by extracting data from various sources, transforming it using Python, & loading it into SQL databases.
- Migrated data from Excel to MySQL using Python for data cleaning, improving speed & data accuracy by 35% at VDart.
- Developed Multiple Power BI dashboards to analyze business flow & employee performance - supporting decision-making

AI Developer Intern – Trio Devs, Trichy

Jun–Aug 2024

Technologies: LLM, RAG

- Worked on building a chatbot using LLaMA and Retrieval-Augmented Generation (RAG) for context-aware responses and Data Privacy.
- Improved response accuracy and reliability through RAG-based retrieval optimization.

Machine Learning Intern – DLK Technologies, Chennai

Apr–May 2024

Technologies: Machine Learning - Supervised Learning

- Worked on a real-time client project to build a predictive model classifying life insurance plans (Term or Traditional) using supervised learning algorithms.
- Achieved 89.9% model accuracy without overfitting.

PROJECTS

Advanced Fake and Real Job Prediction System – Ensemble ML with API Integration

Jul 2024 – Apr 2025

- Build ML Model for Fake and Real Job Prediction. Performed data analysis on job posting dataset and implemented a machine learning system to classify job postings as fake or real using Random Forest, XGBoost, and BiLSTM, achieving 95% classification accuracy.
- Integrated external data through Google Search API to improve verification reliability.

Life Insurance Plan Prediction – Random Forest Classifier

Apr – May 2024

- Built a predictive model to classify suitable life insurance plans (Traditional or Term) using supervised learning.
- Increased model accuracy by 10% through feature engineering, hyperparameter tuning, and model evaluation.

Employee Data Analytics – Power BI

Jan 2024

- Analyzed employee data to identify trends in attrition, job satisfaction, and department performance.
- Built dashboards to visualize data, helping management reduce attrition risk.

CERTIFICATIONS

- Machine Learning with Python – Coursera Dec 2023
- Azure Fundamentals (AZ 900) – Microsoft – Score: 910/1000 Jun–Sep 2024
- Accenture Data Analytics and Visualization for Social Buzz Client – Forage Sep 2024
- Big Data Analytics with Hadoop – LinkedIn Learning Apr 2024

Achievements

- Awarded 2nd Place for Academic Proficiency – M.Sc Data Science 2024–2025
- Awarded 2nd Place in Data Analytics Event – Dexter Fest'24, Bishop Heber College Dec 2024
- Awarded 1st Place for Academic Proficiency – II & III B.Sc Mathematics 2022–2023
- Awarded 2nd Place for Academic Proficiency – I B.Sc Mathematics 2020

Extra-Curricular Activities

- Technical Event Lead - National Level Technical Symposium, Bishop Heber College Feb 2025
- Student Mentor - Conducted **Machine Learning sessions** for Govt. Hr. Sect. School students Dec 2025
